Dear Wendy, Mick and Friends at Tulsa Shuffle

RP RAFFLES AT SATURDAY SOCIALS

I would like to thank Mick and Wendy for giving me the opportunity to sell raffle tickets at their Saturday Socials over the past 8 years and also to thank everybody who has bought tickets and/or donated prizes.

I give below figures for the money raised over the 8 years

| | |
|--------------|--------------|
| 2002 | £647 |
| 2003 | £354 |
| 2004 | £752 |
| 2005 | £258 |
| 2006 | £764 |
| 2007 | £840 |
| 2008 | £1041 |
| 2009 | £681 |
| TOTAL | £5337 |

Thank you on behalf of everyone with RP.

Yours sincerely

Margaret Newson

Professor J Marshall

Retinitis Pigmentosa (RP) is the name applied to a group of hereditary diseases that affect the retina, which is the light sensitive tissue inside the eye, in which the first stages of seeing take place. With RP, the retina slowly loses its ability to transmit pictures to the brain. There is currently no treatment that can stop the progress of RP.
